Vehicle stop

SPECIFICATIONS: Car park stop for temporary or permanent parking solutions.

Overview:

Our Car Wheel Stops provide a visible and physical stop point for parking bays. They help control reverse parking positions in car parks, private parking areas and workplace parking zones. When bolted down this will help secure Car parking and protect buildings from vehicle damage. Also helps with vehicle demarcation. They are manufactured from 100% Recycled material which is 100% recyclable at end of life

CONFORMITY:

Production is carried out in accordance with
ISO 9001:2015 Quality System

COLOURS & FINISHING

Black (Natural), Yellow Paint
