Hey - Log

SPECIFICATIONS: Traffic Log for fencing and traffic management solutions.

Overview:

The new Hey - Log is self-weighted 40KG self-weighted barrier. Manufactured from 100% Recycled material which is 100% recyclable at end of life. Traffic log can be used as a heavy-duty barrier on its own but can also be used to hold multiple sizes of fencing to increase its stability and height. This will help Increase stability of temporary fence panels in areas of increased wind loading and high foot fall areas to help protect the public from deep excavations. Stackable and compact and easy to carry with build in handles and requires no secondary fillings.

CONFORMITY:

Production is carried out in accordance with **ISO 9001:2015 Quality System**

COLOURS & FINISHING

Black (Natural), White Paint, Red Paint

Optional Paint Colours available on request.

MATERIALS:

100% Recycled PVC

KEY BENEFITS:

UK manufactured from 100% Recycled PVC
